### **Vice Chancellor's Message**

It is a matter of great pleasure for me to present the Annual Report of Bhagat Phool Singh Mahila Vishwavidyalaya for the year 2023. The report highlights the activities conducted by the university, new initiatives undertaken, financial statement and significant achievements of the university during the year 2023.

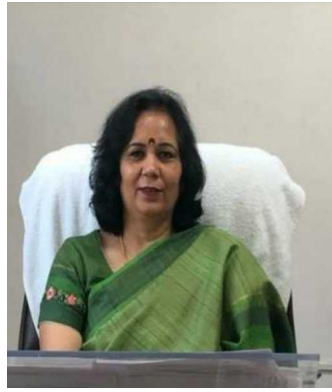

I am glad to share the landmark achievements of the University in several fields i.e. academic, co-curricular, sports, outreach, infrastructure etc. One of the success stories post accreditation has been conferral to do mentorship of colleges which has been for us a milestone achieved. The hard work and meticulous planning done especially by the IQAC resulted in accreditation of the University with B++ grade in the first cycle. The University has successfully submitted its first AQAR, Green Metric and NIRF. It has already facilitated access to financial support from the Union and State Governments like receiving a major project from ICSSR. The University has recently hosted two ICSSR sponsored National Seminars and two International Conferences by HRDC and Department of English. The University has also organised a Science Conclave - 2023 sponsored by Directorate of Science and Technology, Directorate of Higher Education, Haryana. We have hosted Uni-Fest, University Youth Fest. The students have, further, participated in Inter-University Cultural Program and won a considerable number of prizes in different categories. Our sports students have bagged medals in All India Inter University Wrestling championship.

I feel happy to share that the vision of the university is to empower women through education and facilitate their effective participation in societal growth has been realized by the University by undertaking three important activities. Firstly, BPSMV continues to organise multiple outreach programs under the ageies of Women Study Centre and Department of Social Work through community engagement. The University significantly reached out to its neighbouring villages for the engagement of rural women in recreation activities through various cultural programmes. Waste management initiatives have been taken by the university to make it a zero waste campus.

I extend the university staff and various stakeholders for their tireless efforts and an immense contribution towards making BPSMV as one of the premier universities dedicated to women's inclusive development. I take this opportunity to pay my utmost gratitude to the State Government of Haryana for being a constant source of support and guidance.

Jai Hind

## SECTION - I

**Brief Introduction of the University**

Since Vedic period, education has empowered women in several ways. One such seminal and historical step in this direction was establishment of the Girls' Gurukul by Bhagat Phool Singh Ji in 1936 at village Khanpur Kalan in Sonapat district of Haryana State. The noble work initiated by Bhagat Phool Singh Ji was continued by his daughter PadamshreeSubhahshini Devi Ji benefitting thousands of rural women. The erstwhile Gurukul was turned into a State University in August 2006 exclusively for women named after Bhagat Phool Singh Ji as Bhagat Phool Singh Mahila Vishwavidyalaya (BPSMV). The University has the distinction of being North India's the first State Women University spread over pollution free 400 acres of campus. Also the university is unique in the sense that it functions on the model of 'society-university interface', juxtaposition of tradition and modernity and having its genesis in the philanthropic tradition. The Girls' Gurukul started with just three girls has come to be today's BPSMV with approximately 7000 girls on its rolls enrolled in approximately 67 academic programmes administered through its 20 University Teaching Departments, 02 Constituent Institutions, 05 Special Centers, 02 Regional Centers and 06 affiliated Government Women Colleges. The University has turned out to be a sought after destination by women for getting modern education grounded in Indian tradition and universal human values.

#### Activities of and Support from Parent-Teachers association if any-

- Every year, Department of Commerce organizes parents' teachers meeting. Teachers used to counsel the students about the prospects and convey the wards performance to their parents. Many of the parents always attend and appreciate these sorts of meetings.

#### Best practices –

- Department of Commerce has internally evolved and used some of its best practices during the last few years that led to a positive impact on the regular functioning of the department. These practices are in respect of teaching learning, Student Centric Approach, Environment Awareness and Community Engagement.
- **Student Centric Approach-** The main Objective of this Practice is to develop a deep connection between curriculum and student interests, flexibility and adaptability —especially evident during the shift to virtual learning, to enables students to overcome challenges and see how their class work connects to larger interests and goal and to give students the chance to express their ideas in their terms.
- National Education Policy 2020 also focuses on “recognizing, identifying, and fostering the unique capabilities of each student, life skills such as communication, cooperation, teamwork, and resilience and synergy in curriculum across all levels of education” and we aim at creating confident citizens for the nation, who can do well in various fields be it academic or non-academic. We organise orientation programmes, skill and knowledge enhancement activities, talent hunt, PTM, health mela, students' membership in Department level committees and involvement of Alumni as special invitee in UGBoS and PGBoS etc.
- **Community Engagement-** The main objectives of this practice is to Familiarize students with various strata of society, to create a sense of empathy for all fellow citizens, to encourage students to give back to the society in whatsoever manner, to make them understand about self-contentment. We

understand and share with the students about how fortunate they are to have such life. We try laying emphasis on ensuring that community members have access to valued social settings and activities, feel that they can contribute meaningfully to those activities, and develop functional capabilities that enable them to participate fully.

- **Environment centric approach-** The main objective of this practice is to Educate students about their social responsibility towards nature to train them for future resource management, to encourage students to avoid unnecessary consumption of resources especially non-renewable ones. We as a university truly believe in the importance of Nature and its due regard. We are set up in a natural environment far from the hustle of the city.
- We have been conducting various events to ensure students's contribute to the environment by organising Tree plantation drives etc. Also we have included Environment studies in our Curriculum so that students's also get credits for learning.
- Students have developed various nature related hobbies such as gardening etc. They started working for NGO's also for reducing plastic and no-degradable waste in the society. They have adopted trees and plants and have developed a critical point view regarding consumption and conservation of natural resources.

#### **Future plans for next Academic year-**

- To start four-year integrated programme as per NEP.
- Greater focus on research and personal counseling of students.
- To start certificate/diploma courses.

### Best practices –

- Orientation programme - Students of semester-1 will be given an opportunity to visit and observe various agency/community setting in order to know about the initiatives of governmental and non-governmental organizations towards social problems.
- Group Conference is organized with the intention to increase the knowledge of students by learning from experience of other students.
- Block Field Work: At the end of semester-2 of first year, students will be required to undergo four-week block field work training in a social welfare agency or project in or outside Haryana. It is treated more as pre-employment experience.
- Running Community Resource Centre in adopted villages. Community resource centre is culturally sensitive hubs of support and resources that provide programs and targeted services based on the needs and interests of community people.

- To develop semester wise orientation programs by inviting social work/ development professionals/ CSR experts/ Industry experts to help social work learners to develop world views and scope of social work practice.

- To introduce community-based research and action research.
- To collaborate and sign MOUs with research and practice based international and national civil society organizations as well as higher educational institutions.

कुलपति ने कहा कि पानी का संकट सबसे गंभीर संकट है। यह मानव जीवन की एक ऐसी मूलभूत आवश्यकता है, जिसके बिना जीवन की कल्पना भी नहीं की जा सकती। जल का संरक्षण हम सब की जिम्मेदारी है। उन्होंने कहा

जो जल स्तर घटा है और उसकी वजह से जो जल संकट उत्पन्न हुआ है वो हमारी लापरवाहियों से ही उत्पन्न हुआ है। हम अनावश्यक रूप से तथा अधिक मात्रा में जल का दोहन कर रहे हैं। दैनिक उपयोग में आवश्यकता से

अधिक मात्रा में जल के उपयोग ने जल संकट बढ़ा दिया है। जल को व्यर्थ में बर्बाद न करें और न ही प्रदूषित करें। उन्होंने कहा कि जल संरक्षण के लिये जल का

उचित संचय आवश्यक है। डॉ. रानी ने कहा कि अधिक से अधिक वृक्षारोपण किया जाना चाहिए क्योंकि ये वृक्ष एक तरफ तो पर्यावरण को नमी पहुँचाता तथा दूसरी ओर वर्षा करने में सहायता करता है। इस कार्यक्रम में समाज कार्य विभाग, शिक्षा विभाग तथा स्कूल की छात्राओं ने भाग लिया।
